Persons who ha
an experiment, r
either to the comf
hotels, or to the
charmingly located

Grimsby Bea

EXCLUSIVE, home-like, different. A general tone of refinement everywhere, but no ostentation. That's Grimsby Beach, the pride of a place as only bountiful nature

who have come one season as a guest, return year after year, to the comfortable and home-like cottages which are so well located.

Grimsby Beach is a magnificent

wooded park of more than 100 acres, stretching perhaps a half mile along the southern shore of Lake Ontario, twenty miles west of the mouth of the Niagara River, just such a spot as you dream of as a paradise on a hot, sweltering summer day.

The mammoth forest pines, maples and oaks have been zealously guarded for more than the half century this beautiful park has been in existence, and it is asserted that along the entire borders of Lake Ontario there is not such another lordly forest.

American capital has finally acquired this famous camp meeting ground, and while retaining all the charm and delights of the Park as an ideal summer home, modern methods of diversion of the highest class have been introduced to meet the diversity of taste to which the resort naturally appeals.

Grimsby Beach is, and will continue, strictly a residential Park, and will win new fame as a health-pleasure resort.

While a small section of the woods and beach will be devoted to outing grounds for Sunday schools, societies and the better class of excursions, by far the larger part of all the park will be restricted to the cottage life of the permanent summer resident, who wishes to enjoy rest and quiet among the towering pines.

Grimsby Beach is recognized and has been for years, the leading summer resort

in Canada, and travelers from all parts of the world say that for beauty of situation it is unsurpassed. Americans, especially from the South, have known of the place

for years, and with the new ownership, the opportunity is given for the best there is of American culture and social standing, to meet and mingle with the best in Canada.

Surroundings

Pleasant drives lead along the shore of the lake or to Grimsby Mountain nearby, from which may be obtained a view of unsurpassed loveliness. The gravel roads through the vicinity are the delight of motorists. Grimsby Beach is situated in the heart of the great Ontario fruit belt, in the very center of the Garden of Canada. No summer resort is more favorably situated, or possesses a greater number of natural advantages for those who wish to spend most of their time in the open air.

Accessibility

The accessibility of Grimsby Beach is one of the contributing causes of its phenomenal popularity. It is situated on the main line of the Grand Trunk Railway, scarcely an hour's ride west of Niagara Falls. All trains to or from Toronto or

Detroit over the Grand Trunk pass Grimsby Beach.

The elegant cars of the Hamilton, Grimsby & Beamsville Electric Road call at the park gate every hour. A five-cent

fare will take you to the beautiful, charming little village of Grimsby or Beamsville. An hour and a quarter's ride, passing through miles of fruit orchards, will conduct you through Winona, Fruitland and Stony Creek, directly to the very heart of the city of Hamilton, one of the most beautiful of the larger Canadian cities. Two steamboat lines operate between Hamilton and Toronto, permitting a most enjoyable lake ride at small cost.

Negotiations are now under way, which should secure one of the best boats on Lake Ontario, for direct daily traffic between Grimsby Beach and Toronto, a two hours' sail.

The Lake View House

This home-like hostelry is the abode of the exclusive set at Grimsby Beach, and will be conducted in a manner that will

appeal to the tastes of a distinctly refined class of people. At this writing we cannot announce the name of the Manager, but can only state we will spare no expense to secure a man eminently qualified for the position.

The Lake View House is situated in a beautiful pine grove, on Victoria Terrace, overlooking the broad expanse of Lake Ontario. From the spacious verandas, surrounding its three stories, a grand view may be had of the beach, the bathing place and the boat landing. The sunset over Hamilton Bay and Lake Ontario, as seen at this point, is a sight of grandeur never to be forgotten.

The hotel has sixty-five well appointed

Three

rooms, and is lighted throughout with electricity. Nearly three score of dainty cottages in the immediate vicinity give additional rooming space, and are especially desirable for families with children.

With this large number of auxiliaries, we overcome all the undesirable features of the immense summer hotel of several hundred rooms, and enable all of our guests to enjoy the rest and retirement, practically of their own homes.

The Lake View House will be conducted on both American and European plans. The latter is especially desirable for those who prefer a cottage, and wish to take most if not all their meals at the hotel. The cafe rate will be found very reasonable. On American plan the rates are \$2.50 and \$3.00 per day, while a very material reduction will be made for a prolonged stay, or for family parties.

Four

Cottage Home Life

This cottage life at Grimsby Beach is most delightful and gives it its pre-eminence as a summer home. There is nothing to surpass it on the continent of

America. Over 100 cottages are privately held on long time leases, and to them year after year for several generations has come the flower of Canadian society. Here is found ideal rest, recreation and lasting friendship. Aye, many a gray-haired grandmother, or

matronly mother, recalls with tender feeling the romance of her youth at Grimsby Beach, and today watches with beaming eye the love story of her own son or daughter among the enticing fastnesses of the same romantic place.

The sense of safety that is felt, even for the youngest and weakest; the elevating and ennobling moral tone of all its associations; the freedom from anxiety and care that is enjoyed; the healthy and happy social element that abounds; the Canadian spirit of kindness, courtesy and respect that prevails, all combine to make Grimsby Beach truly "The Family Paradise."

Nicely furnished cottages may be ob-

tained for \$10 to \$25 per week, \$40 to \$150 the season, according to location and size. Some of the cottages are completely fitted for housekeeping, making the occupants entirely independent of the hotel, if they so desire.

The Park House

is located on the main street half way between the boat landing and the railway station, opposite the Auditorium and Central Block, in fact right in the midst of "things." It is not a family hotel, but is intended more for

students, teachers and transient guests. Nice comfortable rooms may be had for two, three and four dollars per week, and table board at the restaurant in the hotel for five dollars per week. The cafe is conducted on the European plan, with regular meals at very popular prices. The cooking is very good, and all the supplies are the very best that can be obtained.

A couple can have a pleasant room and be very comfortable at this hotel for \$7.00 per week each. It is doubtful if anywhere in Canada, can they secure such good accommodations for so low a price.

As a Health Resort

Grimsby Beach has an enviable reputation. The fresh lake breezes, the cool mountain air, pure spring water to drink, an abundant supply of all the fruits of the season, the water works system for hotels

and cottages, the careful drainage, the thorough sanitary oversight exercised, all these conditions, so conducive to health, make the park grounds most desirable and safe for all.

The Bathing

The gradually sloping beach at this well-known resort makes it a perfectly safe place for bathing, and one of the interesting events of the day is the hour when the daily plunge is taken in the limpid waters. Here the sufferer from over-wrought nerves is benefited by the hours he spends on the sands, soothed by the lulling motion of the water, and diverted by the happy throngs who are finding great delight in their daily bath. At times, all the exhilarating effects of ocean bathing can be experienced without the attending danger, great waves rolling up over the beach, when the lake yields to the potent influences of the ri-

ing winds. Its usual feature, however, is one of great placidity, and children delightedly wade in the lapping waves, unattended, and without the slightest risk of danger. The bathing houses are being entirely rebuilt and comfortable accommodations will be provided for a large number.

Boating or Yachting

The facilities for rowing or yachting at Grimsby Beach are as good as can be found at any summer resort situated on the shores of a great lake. The usual tranquility of the waters of Lake Ontario makes this pleasure inviting and safe. During the season the evening hour finds many of the visitors at the Beach gliding

over the moonlit surface of the lake to the music of charming song. Row-boats, canoes and motor boats may be rented by the hour, day or week, and skilled attendants will always be found at hand to render all assistance possible to the inexperienced.

Recreation

For the people who reside for any length of time at the Park, there is no place where all the good things of a summer resort are so conspicuously manifest as on the athletic field. The unanimous testimony of all visitors is that nowhere is there to be found a greater spirit of cordiality and good fellowship than on the recreation grounds of Grimsby Beach. The base ball and athletic field has been largely improved, a foot-running track built and a grandstand added with dressing rooms below.

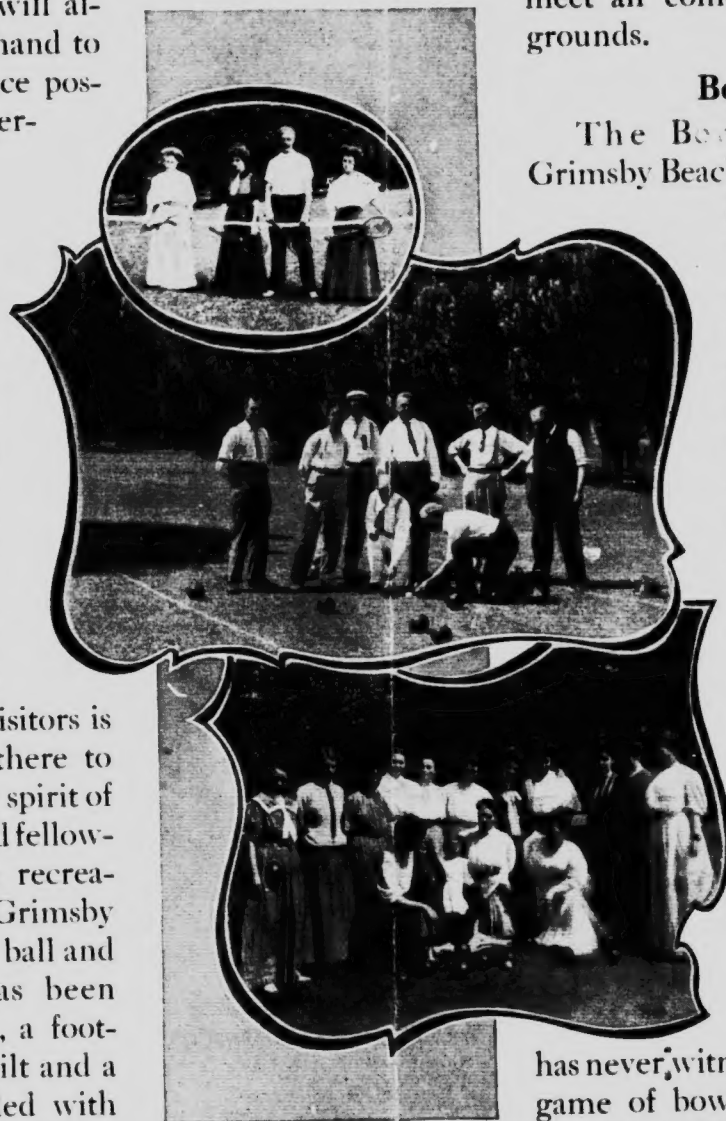

Queen's birthday (May 24), Dominion Day, Civic Holiday and Labor Day, Sept. 5, will be the days of great doings, with special programmes of contests of all kinds

for children, ladies and athletes. Special Baseball, Lacrosse and Cricket matches will be arranged and the Grimsby Beach Baseball Team, Seniors and Juniors, will meet all comers on their own grounds.

Bowling

The Bowling Green of Grimsby Beach is one of the best in the Niagara Peninsula and every effort will be made to keep the sod in the best possible condition. Bowling has become one of the strong institutions of the Beach and the game is enjoyed by young and old, by the ladies as well as the gentlemen. Match games with outside clubs will form some of the coming season's interesting events. To the American who

has never witnessed the Canadian game of bowling on the green, the sight will first awaken his intense interest, to be followed quickly by his ardent desire to join in the game. It looks easy, but—we leave that for the new player to discover for himself.

Lawn Tennis

The Lawn Tennis Courts have been much improved. The privileges of both these pastimes are offered to all who wish to enjoy them at a cost which is a mere bagatelle. If you wish to make your vacation one of the most pleasant memories of your life, come to Grimsby Beach and enjoy the good comradeship of the genial frequenters of the recreation grounds.

Fishing

Perch in great multitude and of large size furnish grand sport to the fishers on the pier, until the middle of July, and for several weeks later to those who visit the grass beds in boats. One of the sights of Grimsby Beach is the daily line-up on the pier from early morn until long after sundown, and rarely is it that the disciple of Isaac Walton is not rewarded with a most excellent string of sweet, toothsome perch, and now and then a rock bass.

Cricket

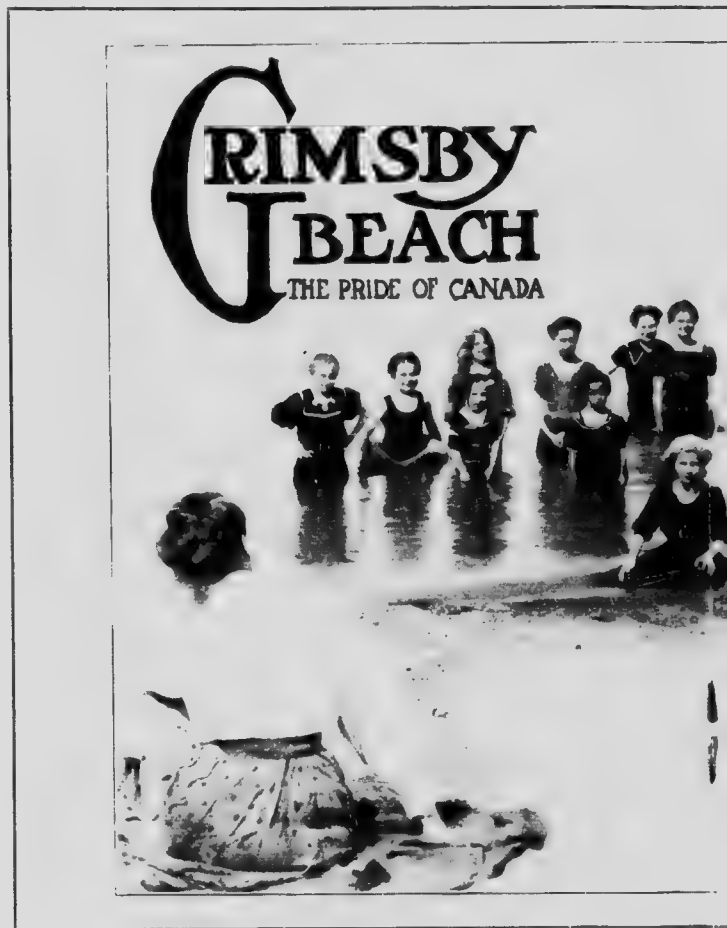

Following pace with the revival of this great game throughout Canada, a fine Cricket Crease is being constructed on the old athletic field and many stirring matches are already scheduled for the summer. The Grimsby Cricket Club will be in charge of the grounds and arrangements for match games may be made with its Secretary.

Beamsville Day

Dominion Day, (July 1st,) is known as Beamsville Day, at Grimsby Beach.

Eight

On that day, the Beamsville Social Club will be in charge of all athletics and will conduct an amateur athletic meet which will be participated in by all the crack athletes of Canada and the United States. So satisfactory to everyone concerned has

been the field day of this excellent club, that the Secretary of the Canadian Amateur Athletic Union has especially recommended the club in a warm letter of praise. Among the trophies to be competed for on Beamsville Day will be the fine silver challenge cup, donated by Senator Gibson.

Grimsby Day

Labor Day, will be better known at Grimsby Beach as Grimsby Day. On this day, every inhabitant of the famous Grimsby district, the "Garden of Canada," will consider Grimsby Beach his own

personal property and will picnic there with his wife, his children and his neighbors. Grimsby Day is destined to become a great day at Grimsby Beach, and will be the fitting formal closing each year of the regular season. We promise a program on Grimsby Day that will be

both original and long to be remembered, a program in which Grimsby will be at her best.

Camping Grounds

Extensive grounds have been reserved for campers, where every facility will be found for their comfort. A large number of campers can be accommodated throughout the season. Running water, electric light, tents, cots and bedding, being provided at a very moderate cost. A ground rental of one dollar per tent per week, includes water, electric light and garbage removal.

Picnic Grounds

These grounds are far enough removed from the Lake View House and the cottages as to insure perfect quiet for those who wish it. For those who care to mingle in the crowds which visit these grounds, a day of keen enjoyment is possible. Picnics at Grimsby Beach are different from picnics elsewhere. Everyone seems to be enjoying the outing and there is a general feeling of good-fellowship and keen delight. The sale of liquor is prohibited on the grounds and there is no rough element or unseemly conduct. Just the true Canadian spirit of kindness, and a desire to get the most of a day's outing in the woods and on the beach of glorious Lake Ontario.

Sunday schools, societies and lodges will be accorded special days at no expense for entrance fees to the grounds. Arrangements should be made with the management for these days.

No charge is made for the use of picnic tables or the picnic grounds. Hot water is also supplied free, and dishes, cups, etc., for a nominal rental. The grocery, butcher, milkman and lunch counters, will help

out the party who brings a scant lunch, while both dinner and supper at the Park House or Tea Garden, will be found very good and very reasonable. Children under 15 who bring their bathing suits, will be given bath house accommodations free of charge.

In order to avoid conflict in the use of the athletic field, large picnic parties should make arrangements in advance. Immediately adjoining the picnic grounds will be found the merry-go-round, a modern machine of large size, the miniature railway, giving one-half a mile of a delightful ride through a grand forest; the photo gallery, box ball and last and possibly best, a continuous moving picture show, one of the best we were able to find in Cleveland. We ask no admission fee

at the gate, but give you plenty of chance to spend all you wish in good wholesome amusement. There is no Coney Island or Midway. Liquor is prohibited.

Taken altogether, we doubt very much if anywhere in Ontario can such excellent accommodations for picnics and excursions be found

The Auditorium

We have entirely remodeled this long famous building, one of the most unique

wooden structures in Canada. Even in these modern days of iron and steel construction, the visitor looks and marvels at the architectural wonders of the Grimsby Beach Auditorium.

All theatrical performances will be given here, the great seating capacity and grand acoustic properties especially fitting it for the proper presentation of any theatrical production.

The Auditorium will be fittingly dedicated on Victoria Day (May 24th) by the Dickens Fellowship Company of Players, Toronto, the winners of the Earl Grey Dramatic Trophy.

During the season an excellent Stock Company, known as the Grimsby Beach Players, under the management of Waide Scott, New York, will appear in repertoire.

In addition, evenings will be devoted to dramatic, musical comedy, lectures, concerts, and other entertainments.

Religious

The Canadian Sabbath will be strictly observed at Grimsby Beach. The gates will be open, but quiet and rest will be enforced throughout the Park. Bathers who desire to avail themselves of the privileges of the beach are requested to do so before ten in the morning.

All religious services will be under the direction of a committee of the Cottagers' Association. Services on Wednesdays and other weekday evenings will be held in the Boys' Tabernacle. On Sundays, mornings, afternoons and evenings in The Auditorium.

Instruction

Arrangements are being perfected for classes in music, sewing, painting, also for a kindergarten. Information may be obtained by addressing the Resident Manager.

Physical Culture

Mr. R. Stanley Burleigh, Supervisor of Physical Culture in the public schools, of Pittsburg, Pa.,

has given such universal satisfaction in this department during the past six years, that he will be in charge for the season of 1910. Mr. Burleigh will conduct classes for boys, girls, men and women, and will receive widespread support.

The advisability of including physical training in the curriculum of the public schools is now generally recognized. As the teachers require a definite knowledge of this work, suited to the school room, Mr. Burleigh will have also a class for teachers. The lessons will be given in printed form, and will be in two divisions, free hand and light apparatus, each of these divisions will be a complete course in itself, covering eight grades of work, from the lowest to the highest. For all

information concerning the classes address R. Stanley Burleigh, 2330 Sarah Street,

Pittsburg, Pa., or during July and August, at Grimsby Beach.

Elocution

Special classes in elocution will be formed during the summer by Miss Bertha Adams, B. E., who has had a wide experience as a teacher in Chautauqua and summer and winter schools, as well as in training large numbers of young people and children for special work. Miss Adams is a graduate of Alma Ladies College, St. Thomas, Ont., and also of the National School of Elocution and Oratory, Philadelphia. For information address, after May 1, Miss B. Adams, B. E., Grimsby Beach, Ont.

Musical

The Musical programme for Grimsby Beach will be under the direction of Mr. Frank M. Howard of Hamilton, Bandmaster of the 44th Regiment Band.

Mr. Howard has been long and favorably known as an instructor of recognized

ability, and under his direction we are quite sure a great treat is in store for the lovers of good music who visit Grimsby Beach this season.

Among other special engagements, it may be mentioned that the 44th Regi-

ment Band will be heard in open air concerts at least twice a week throughout the season.

Business

The "Central Block or Bee Hive" will be occupied by the Post Office, grocery, laundry office, dry goods store, drug store, butcher shop, barber shop and a jewelry, souvenir and stationery store. The office of Mr. H. H. Wylie, General Manager and Mr. E. H. Read, Resident Manager, will also be located in the Central Block.

In choosing the different storekeepers, we exacted a guarantee that both prices and quality should be the best possible.

The Daily Market

The daily farmers market which has always been such a boon to the housekeepers, will be continued for the sale each morning, between the hours of 7 to 11 o'clock, of fresh vegetables, butter, eggs, honey, fruits and flowers. In addition the products of Grimsby Beach

R. STANLEY BURLEIGH

Farm will be on sale at the Central Block after the close of the market. The farmers of the Grimsby district have become famed for their garden products, and it's a lucky housewife indeed who obtains the advantages of Grimsby Beach market.

Milk Supply

The Maplewood Dairy will supply the mornings and evenings milkings, twice each day, leaving a supply also at the grocery.

Ice and Wood

Ice and wood will be delivered daily between 7 and 11 o'clock. Orders must be left at the office of the Resident Manager. Coupon books good for ice, wood and baggage delivery or removal, or for any indebtedness to the Trustees may be obtained at a discount, \$2.15 books, \$2.00.

Water, Electric Light, Etc.

All members of the Cottagers' Association will be given an adequate supply of running water, daily removal of garbage and rubbish. Electric light will be supplied for \$3.00 per season, which amount gives five lights per cottage. Additional lights 60 cents per season. Based on 8 C. P.

Rental of Cottages

Persons renting privately owned cottages, should ascertain from the Resident Manager whether the owners thereof have complied with the conditions and requirements of the "Cottagers' Association," and have paid their assessments, otherwise no water, garbage removal or electric light can be supplied to the cottage.

Cottages, tents, cots, chairs house-

Thirteen

F. M. HOWARD

furnishings of all kinds, may be rented by the day, week, month or season by applying to the Resident Manager.

HOW TO GET THERE

Grimsby Beach is on the main line of the Grand Trunk Railway, midway between Niagara Falls and Hamilton. The Grand Trunk Station is directly at the gates of the Park, within easy walking distance of the hotel and cottages. The Lake View Hotel and Park House porters and teams will meet all trains, of which there are several each day.

Fourteen

Electric Line

Parties coming by way of Hamilton can take the Hamilton, Grimsby and Beamsville Electric cars, hourly, direct to the gates of the Park. It is a beautiful ride along the main road from Hamilton to Niagara Falls. Before the end of 1910, it is anticipated that the Electric road will be completed to St. Catharines, giving connection all the way to the Falls.

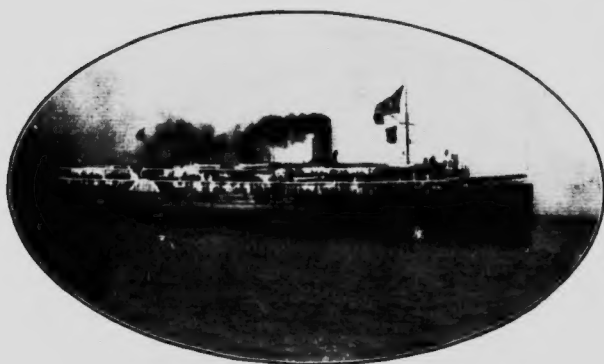

Hamilton and Toronto Steamboats

At this writing, May 1st, arrangements have not been completed for direct Steamboat service to Toronto, but every indication points to a daily service during July and August. The H. G. & B. Electric Railway has made special arrangements with the Hamilton Steamboats and the Turbinia Steamboat Co., to carry passengers from Toronto to Grimsby Beach and return, or vice-versa, for \$1.15.

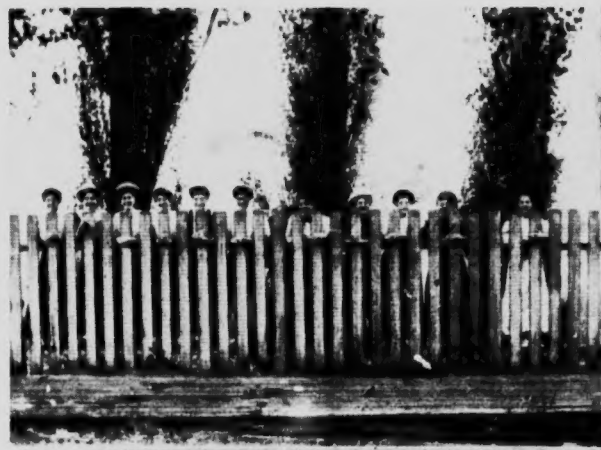

Cleveland-Buffalo Boat

Tourists to and from Cleveland or points South and West thereof, will find the Cleveland and Buffalo boat a most enjoyable way of making the trip. Lake Shore R. R. tickets will be accepted on the boat either way, between Cleveland and Buffalo. Parties coming from the South by way of Cleveland, can break their journey at this point and enjoy the advantages of a night ride on the palatial City of Buffalo or City of Erie, without additional cost.

The round trip rate from Cleveland direct to Grimsby Beach, good June 1st to Oct. 31st, is \$7.15. This includes transfer at Buffalo from boat to Grand Trunk depot. These tickets also permit of an indefinite stop-over at Niagara Falls or Buffalo, going or coming.

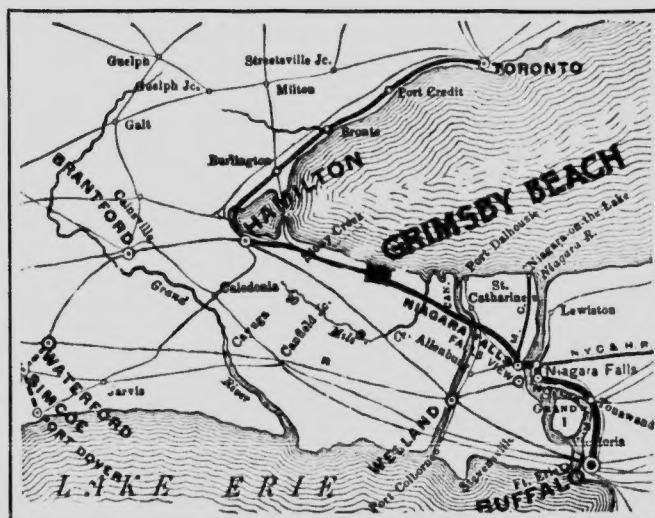

A pleasant break in the trip would be to leave Buffalo at 8.15 A. M., stop off at Niagara Falls, N. Y., view the falls and surroundings and take street car to Niagara Falls, Canada, leaving there on Grand Trunk at noon. This gives one three hours at the Falls.

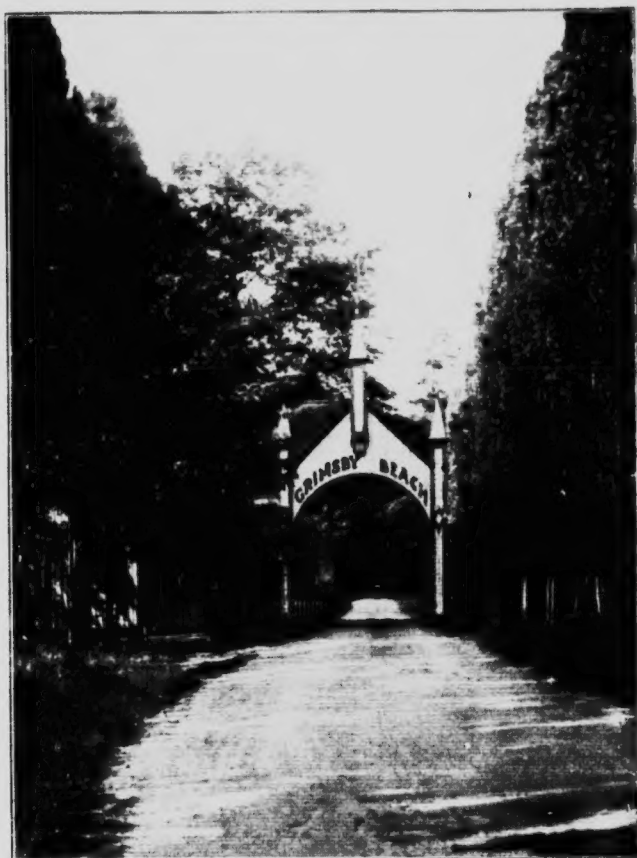

DID HE COME ON THAT TRAIN?

To American Travellers

Tourists from the United States coming by rail will do well to buy round trip tickets to Niagara Falls, Canada, and check their baggage to that point. In this way they may obtain considerably lower rates. The round trip rate from Niagara Falls, Ont., to Grimsby Beach is \$1.10, good all season. All baggage is examined at Niagara Falls, Ont., giving ample time for rechecking.
